

CMX Career Opportunities

SENIOR MANAGER: SUSTAINABLE DESIGN (MANALAPAN, NJ)

Description:

CMX, a national engineering and consulting firm, offers a broad range of consulting services for public and private clients from office locations throughout New Jersey, Pennsylvania, New York and Maryland.

Our award-winning company serves seven core markets: transportation, land development, public works, environmental, building services, telecommunications and sports engineering. Most importantly, our services help improve the communities, the environment, and the lives of millions of people throughout the nation.

Requirements:

We are currently seeking a highly motivated senior level manager to lead and grow our commissioning, retro-commissioning and sustainable design business. Candidates must be experienced with commissioning, energy audits and efficiency measures, LEED certification and principles, alternative energy evaluations and design (solar, waste-to-energy, combined heat and power, geothermal), energy modeling and life cycle costing and analysis. The candidate should be experienced with energy incentive programs (NJ SmartStart, Pay for Performance, etc), evaluation of ESCO's and Power Purchase Agreements, HVAC systems, Electrical power and lighting for commercial and industrial applications.

Responsibilities include:

- Grow and develop our Sustainable Design capability.
- Lead and manage commissioning and retro-commissioning workload.
- Consult on energy efficiency and sustainable designs.
- Responsibility for technical quality, client management, personal and subordinate time management.
- Technical report writing and editing.
- Energy Start assessments.
- Business development and marketing.

Qualifications:

- BS or MS in Mechanical Engineering
- LEED AP
- Licensed Professional Engineer
- Minimum of 10 years experience.
- Certified Commissioning Professional (CCP) or Accredited Commissioning Process Authority Professional desired.
- Certified Energy Manager (CEM) desired.
